## SUMMARY

I love increasing my developer workflow which eventually helps me with my productivity. With Arch, Nvim, Tmux, i3WM, and building performant projects as a FullStack Developer, I am also trying to scale my leet code journey side by side. I aspire to be a better software engineer, Not just a leet coder or just a developer—a versatile professional capable of solving (or trying to) any given problem.

## SKILLS

Typescript

Next.js

MongoDB

ExpressJs

## PROJECTS

### Birthday Wonders!

04/2024 - 04/2024 Location

What happens if you Mix Birthday + Math!  
Explore yourself.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

### Banana Talk

01/2024 - 01/2024 Location

This banana can talk! <https://bananataalk-jj.netlify.app/>

<https://github.com/Barmanji/Banana-Talk> As you have seen Minions or Despicable Me, minions talk in a very peculiar way so I just tried to replicate it and this is what I came up with!

Caution - This API gives only 10 free translations per hour so if you are facing any issues then try after an hour or so.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

### Cash Register Manager

01/2024 - 01/2024 Location

Welcome to the cash register manager! <https://cash-register-manager-jj.netlify.app/>

step 1: Put the amount in "Bill Amount" (whatever the prize of the product is)

step 2: Put the amount of cash given to you in "cash given"

Note- Bill amount must be  $\leq$  Cash Given & Bill Amount  $\neq$  0.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

### Calculator

12/2023 - 12/2023 Location

I made this a few days ago! with a lot in mind!

<https://calculator-jj.netlify.app/>

<https://github.com/Barmanji/Calculator> Let's talk!

so it's my kind of first project after learning JS/HTML5/CSS3 for some time and it was pretty challenging, like how to set DIVs by Grid/Grid-template, and got to know about HSL and other color values in CSS, I used it first-time Error and Catch in JavaScript and learned a lot!

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

## EDUCATION

Bachelor of Technology - BTech, Computer Science

ABESIT

10/2023 - 10/2027
